

HVS ALUMINIUM & GLASS

Architectural Aluminium

Form meets function.

BALUSTRADES | PERGOLAS | GATES | SHUTTERS | LOUVRES

*Crafting Dreams,
Framing Reality.*

DESIGNED AROUND YOUR SPACE

Practical function. Coordinated finish.

HVS manufactures custom aluminium features designed to bring practical function and a coordinated finish to the property.

Whether defining balconies and entrances to creating shade and privacy, each solution is made to suit the space and complement the building’s architectural style.

Crealco aluminium profiles are selected around the application, with dimensions, layout, profile proportions and finishes considered together. Designs are tailored to the opening, available fixing points and site conditions.

CUSTOM
MADE

Designed

space

COORDINATED
FINISH

To complement the
architecture

PLANNED FOR
SITE

Openings, fixing
points &
conditions
considered

FUNCTION, BUILT INTO
THE DESIGN.

Our Product Collection

MADE FOR DIFFERENT
APPLICATIONS

BALUSTRADES

Define balconies, staircases and raised areas with a neat aluminium barrier.

PERGOLAS

Create structure and filtered shade over outdoor living spaces.

GATES

Practical entrances designed to complement the property and its boundary.

SHUTTERS & LOUVRES

Manage privacy, sunlight, screening and airflow through purpose-designed aluminium blades and configurations.

Designed around the property. Made for the application.

Specifications

PROFILE SYSTEMS

- Crealco aluminium profiles
- Profiles selected according to the product and application
- Dimensions, layout and proportions considered together
- Configured around openings, fixing points and site conditions

FINISHES

- Powder-coated finishes available
- White, Charcoal, Black & Bronze popular options
- Silver or Natural anodised finishes available on selected profiles
- Special colours available subject to profile availability
- Final colour and finish confirmed when quoting

HARDWARE & FIXINGS

- Hinges, locks, fixings and moving components selected for the application
- Gate hardware considered with opening and operating requirements
- Fixing details planned around the installation location
- Moving components require periodic care

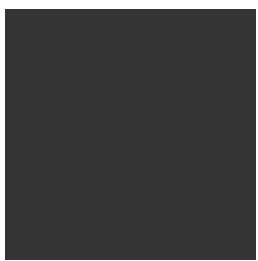

PRODUCT CONFIGURATION

- Balustrades planned around levels, fixing surfaces and safety requirements
- Pergolas configured around footprint, height, supports and overhead spacing
- Shutter and louvre blade arrangements selected around privacy, shade and airflow
- Gates designed around opening, access and available operating space

MANUFACTURE & COMPLIANCE

- Specified for project location and exposure
- Frame, glass and hardware considered as a complete system
- Manufactured & installed to applicable standards
- Glazing certification issued where applicable

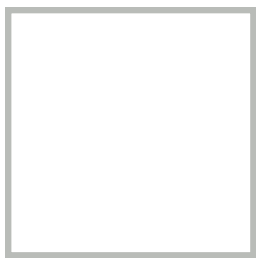

COLOUR OPTIONS

Charcoal

Matt Black

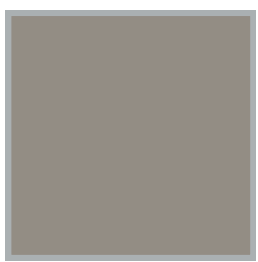

White

Bronze

Matt Stone Grey

The detail makes the difference

→ Profile proportions considered

→ Spacing set for the intended purpose

→ Supporting structure considered

→ Fixings planned for the location

→ Finish selected to coordinate

DETAILS CONSIDERED AS A WHOLE.

Form in the real world.

RESIDENTIAL | COMMERCIAL
DESIGNED AS PART OF THE SPACE

Commercial | Outdoor Pergola | Purpose-built aluminium structure creating shade while remaining visually connected to the outdoors and architecture.

Architectural | Screening | Vertical aluminium screening integrated into the building to define space and provide separation.

Residential | Louvres | Louvred screening incorporated around an opening for privacy, airflow and solar control.

Where function becomes part of the architecture.

1

MADE FOR THE PROJECT

Configured around the space, purpose and requirements of each application.

2

CONSIDERED DETAILING

Profiles, spacing, fixings and finishes considered as part of the complete solution.

3

SKILLED WORKMANSHIP

Manufactured with attention to fit, function and finish.

4

PROFESSIONAL INSTALLATION

Carefully measured, manufactured and installed by the HVS team.

5

INDUSTRY REGISTERED

AAAMSA & SAGGA registered.
