

HVS ALUMINIUM & GLASS

Custom Aluminium Solutions

Made beyond standard.

PURPOSE-BUILT | PROJECT-SPECIFIC | MADE TO SPECIFICATION

*Crafting Dreams,
Framing Reality.*

Start with what you need.

Not every project begins with a standard product. HVS develops aluminium and glass solutions around a particular use, opening or design idea.

From smaller fabricated details to larger enclosures, each project begins with the brief — considering the site, function, appearance and practical requirements before the solution takes shape.

YOUR IDEA

The starting point

PURPOSE FIRST

What it needs to do

DEVELOPED FOR SITE

Around real conditions

AN IDEA BECOMES
SOMETHING BUILDABLE.

Custom Product Range

SOLUTIONS OUTSIDE THE
STANDARD

BRAAI & OUTDOOR FEATURES

Aluminium components and enclosures developed around braai and entertainment areas.

EQUIPMENT COVERS

Purpose-made covers for air conditioners, generators and other service equipment.

GATES & SCREENS

Custom aluminium gates and screening shaped around access, privacy and the architecture.

CLEAR BURGLAR BARS

Security solutions designed to preserve sightlines and daylight where suitable for the opening.

POOL ENCLOSURES

Site-specific aluminium and glazing arrangements for enclosing swimming pool areas.

INTERIORS & DETAILS

Office partitioning, custom handles and individual aluminium or glass features developed for the project.

Different need. Different answer.

Specifications

BUILT AROUND THE
REQUIREMENT

PROFILE & CONFIGURATION

- Crealco aluminium profiles
- Aluminium profiles selected to suit the application
- Dimensions and configuration determined by the project
- Custom fabrication available for non-standard requirements

INFILLS & COMPONENTS

- Aluminium slats, blades, panels and other infills as required
- Glass or alternative materials incorporated where specified
- Components selected to suit the intended function

FINISHES

- Powder-coated aluminium finishes
- Colour options selected to coordinate with the project
- Final finish confirmed before manufacture

HARDWARE & OPERATION

- Hinges, locks, handles, rollers and moving components selected for the application
- Manual or specialised operating requirements considered where applicable
- Hardware coordinated with the product configuration.

DESIGN & INSTALLATION

- Each solution measured and configured for its installation location
- Fixing points and supporting structure considered before manufacture
- Manufactured and installed by the HVS team

PROJECT CONSIDERATIONS

- Intended use, dimensions and site conditions considered
- Privacy, screening, airflow or access requirements incorporated where relevant
- Final configuration agreed before manufacture

Designed around the purpose.

BUILT BEYOND STANDARD
FORMATS.

Purpose-built configuration

Proportions shaped to the application

Integrated aluminium components

Fixing details considered from the outset

Finish coordinated with the project

FROM A SPECIFIC NEED TO A FINISHED SOLUTION.

Made for more than the ordinary.

CUSTOM ALUMINIUM IN APPLICATION

Custom aluminium screening | Purpose-built aluminium screening conceals external air-conditioning units, keeping services accessible while maintaining a clean, considered exterior.

Interior aluminium screening | Vertical aluminium elements form an architectural screen alongside the staircase, integrating function with the interior design.

External aluminium screening | A full-height aluminium screen designed around the entrance, adding privacy and definition to the façade.

When the requirement falls outside the standard, the solution starts with the space.

1

MADE AROUND THE REQUIREMENT

Each solution starts with what the project actually needs rather than a predetermined product.

2

PRACTICAL PROBLEM-SOLVING

Unusual openings, screening requirements and architectural details are worked through with the intended function in mind.

3

FLEXIBILITY IN FABRICATION

Aluminium components can be configured and adapted to suit non-standard dimensions, forms and applications.

4

FROM IDEA TO INSTALLATION

Measurement, fabrication and installation are handled by the HVS team, keeping the solution considered from start to finish

5

INDUSTRY REGISTERED

AAAMSA & SAGGA registered.
