GLASS, CONSIDERED DIFFERENTLY.

Shaped by the application.

Glass shapes the way a space looks, feels and functions. HVS glass solutions are selected around the application, bringing together appearance, safety, comfort, privacy and everyday use.

From interior glass and showers to doors, windows and architectural glazing, the right specification starts with understanding what the space needs.

Why choosing the right glass matters

SAFETY

Different applications require different safety characteristics. The right glass is selected around how and where it will be used.

COMFORT

Glass selection can help manage solar heat, glare and temperature, improving comfort throughout the space.

PRIVACY

Clear, obscure and reflective options offer different levels of visibility and screening to suit the application.

SOUND

The right glazing combination can help reduce outside noise where acoustic comfort is important.

LESS FRAME.
MORE SPACE.

Glass Range

SOLUTIONS FOR DIFFERENT APPLICATIONS

GLASS PANNELLING

Defines spaces while maintaining daylight and visual connection.

SHOWERS & MIRRORS

Custom glass showers and mirrors measured and finished to suit the space.

GLASS ROOFS

Overhead glazing designed to introduce natural light from above.

CUSTOM INTERIOR GLASS

Made-to-measure glass for display cupboards, table tops and other interior applications.

Clarity, shaped around the space.

Built into the architecture.

Glazing is selected around more than appearance. The application, orientation, exposure and required performance all influence the final specification.

HVS works with clear, safety, solar-control and insulating glass options to suit the requirements of the project.

SAFETY GLASS

Toughened and laminated options selected according to the application.

SOLAR CONTROL

Performance glass options can help manage solar heat and glare while balancing natural light.

DOUBLE GLAZING

Insulating glass units can improve thermal comfort, with additional performance specified where required.

Specified for the space. Installed for the application.

Specifications

SELECTED FOR THE APPLICATION.
INSTALLED WITH PRECISION.

GLASS OPTIONS

- Clear glass
- Toughened safety glass
- Laminated safety glass
- Obscure / privacy options

PERFORMANCE GLASS

- SolarVue Neutral
- SolarShield S10 Silver
- SolarShield S10 Bronze
- NC45 — specification dependent

DOUBLE GLAZING

- Insulating glass configurations
- Low-E options where specified
- Glass and framing considered together
- Final configuration selected for the application

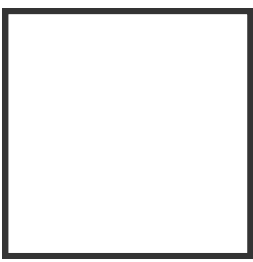

APPLICATIONS

- Glass panelling & showers
- Display cupboards & table tops
- Glass roofs
- Doors, windows & architectural glazing

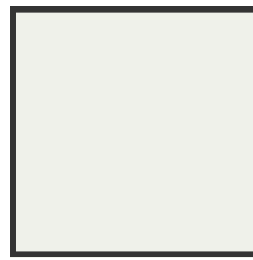

SPECIFICATION & COMPLIANCE

- Glass selected according to application
- Thickness and treatment determined by the complete system
- AAAMSA & SAGGA registered
- Glazing certification issued for applicable installations

FINISH/ APPEARANCE

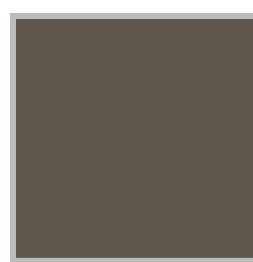

Clear

Neutral

Silver reflective

Bronze reflective

Obscure | Privacy

Final glass appearance to be confirmed against product specifications and physical samples.

Made to be (in)visible.

MINIMAL HARDWARE.
MAXIMUM CLARITY.

→ Glass selected for the application

→ Edges and exposed details considered

→ Hardware matched to the glass system

→ Panels measured and aligned accurately

→ Junctions finished with care

THE LESS YOU NOTICE, THE BETTER IT WORKS.

Glass in its element.

RESIDENTIAL | COMMERCIAL
DIFFERENT APPLICATIONS. ONE CLEAR PURPOSE.

Architectural | Custom Glazing | Purpose-designed glazing integrated into the architectural form.

Architectural | Feature Glazing | Custom glass fitted within the structure and geometry of the building

Residential | Custom Glazing | Glass solutions integrated into a contemporary residential project

Glass that works with the architecture.

1

CONSIDERED SOLUTIONS

Specified around the project, location and exposure.

2

COMPLETE SYSTEM APPROACH

Frame, glass and hardware considered together for the intended application.

3

SKILLED WORKMANSHIP

Manufactured with attention to fit, function and finish.

4

PROFESSIONAL INSTALLATION

Manufactured and installed to applicable standards, with glazing certification issued where applicable.

5

INDUSTRY REGISTERED

AAAMSA & SAGGA registered.
