

HVS ALUMINIUM & GLASS

Shopfronts & Glazing

Built around the architecture.

RESIDENTIAL | COMMERCIAL | CUSTOM

*Crafting Dreams,
Framing Reality.*

More than a shopfront.

Shopfront systems can do far more than frame a retail entrance. HVS manufactures and installs aluminium and glass assemblies for shops, showrooms, offices, hospitality spaces and residential architecture.

From a single entrance to an extensive glazed frontage, each layout is considered around the opening, building style and way the space will be used.

MADE FOR
THE OPENING

From compact
entrances to
larger elevations

PLANNED
AROUND USE

Access, visibility
and daylight
considered

MANUFACTURED
& INSTALLED

By the HVS team

FRAMING THE WAY A
SPACE IS SEEN AND USED.

Where Shopfronts Work

ACROSS DIFFERENT
ENVIRONMENTS

RETAIL & SHOWROOMS

Glazed frontages that create visible displays, defined entrances and clear views into the space.

OFFICES & WORKSPACES

Bright entrances, reception areas and glazed internal spaces that maintain visual connection.

HOSPITALITY & PUBLIC SPACES

Glazing for restaurants, wine estates, hotels and other shared environments where light, views and access matter.

RESIDENTIAL

Shopfront-style assemblies used to frame views, enclose living areas and create larger architectural glazed features.

Protection, designed as part of the space.

Built into the architecture.

Glazing is selected around more than appearance. The application, orientation, exposure and required performance all influence the final specification.

HVS works with clear, safety, solar-control and insulating glass options to suit the requirements of the project.

SAFETY GLASS

Toughened and laminated options selected according to the application.

SOLAR CONTROL

Performance glass options can help manage solar heat and glare while balancing natural light.

DOUBLE GLAZING

Insulating glass units can improve thermal comfort, with additional performance specified where required.

Specified for the space. Installed for the application.

Specifications

FRAMING, GLASS & HARDWARE.
CONSIDERED AS ONE.

PROFILE SYSTEMS

- Crealco aluminium profiles
- Profile and frame depth selected for the layout
- Panel divisions considered around the application
- System selected to suit project requirements

GLASS OPTIONS

- Clear safety glazing
- Toughened & laminated safety glass
- Tinted & solar-control options
- Privacy & reflective finishes
- Double **glazing** in compatible systems

FINISHES

- White
- Charcoal
- Black
- Bronze
- Silver / Natural
- Special colours available subject to supplier availability

ENTRANCES & HARDWARE

- Hinged, sliding or folding arrangements where suitable
- Handles, locks, hinges & closers selected around use
- Access-control requirements considered
- Door size and expected traffic taken into account

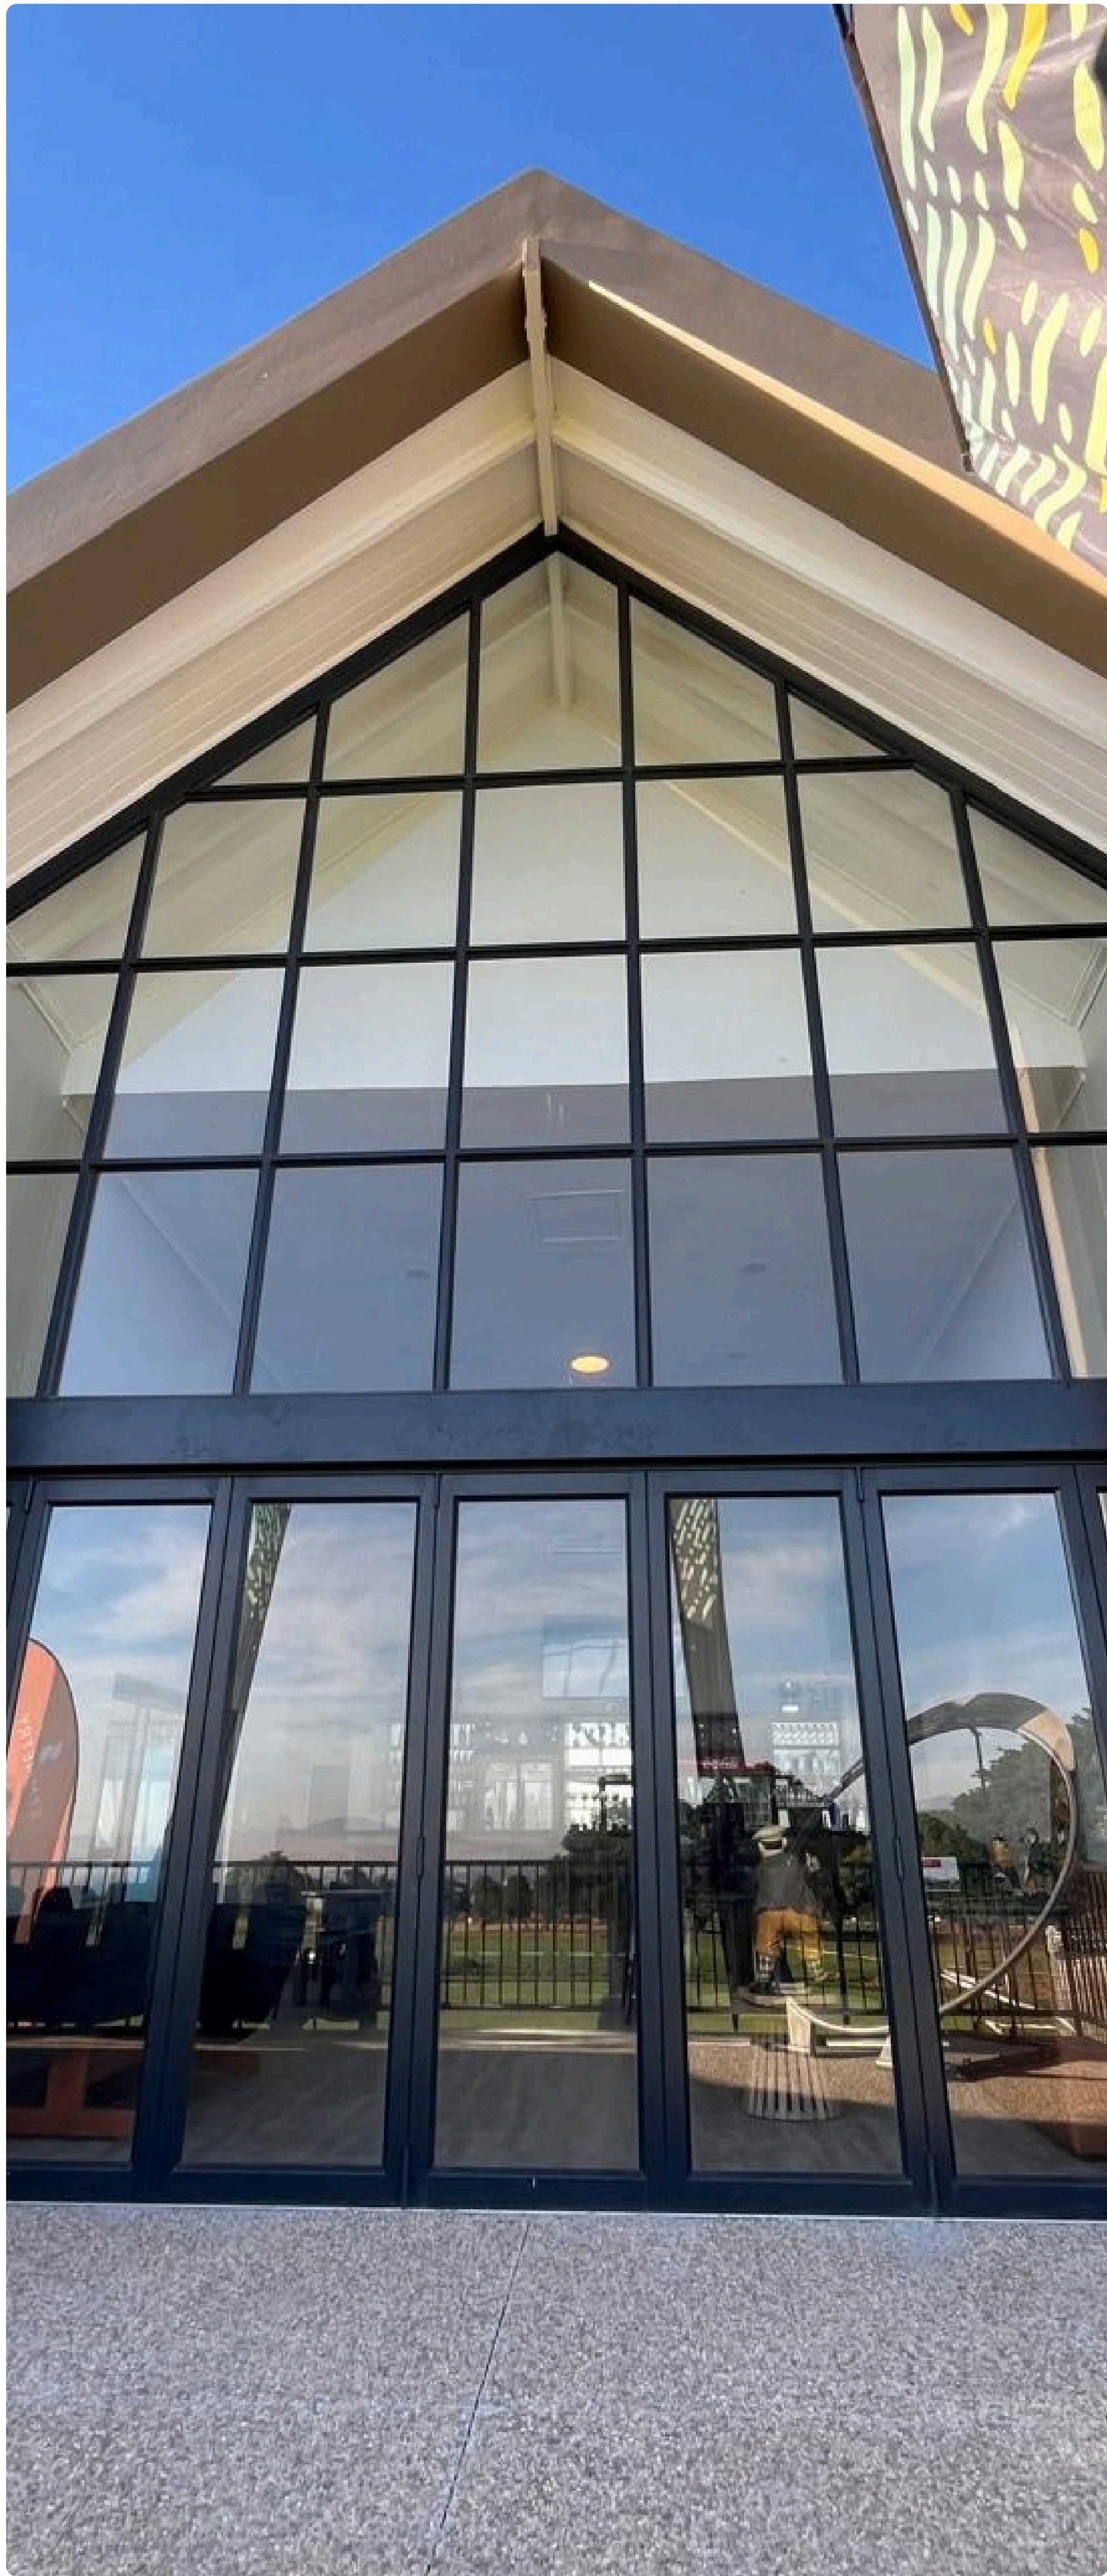

SPECIFICATION

- Pane dimensions and glass weight considered
- Wind exposure and frame spans assessed
- Fixing points and site conditions considered
- Specialist support or engineering identified where required

Designed around the opening.

THE FRAME BECOMES PART
OF THE ARCHITECTURE.

Full-height glazed panels

Integrated door openings

Considered frame divisions

Shaped and angled glazing

Coordinated panel proportions

SIMPLE OPENINGS TO COMPLEX ELEVATIONS.

Built across different spaces.

Vredenheim | Glazed frontages with shaped upper panels and integrated door openings.

Casa Helios | Glazed elevations with repeating frame patterns and shaped gable panels.

House Flanagan | Residential glazing showing how shopfront-style assemblies can form part of a home's architecture.

Different buildings. Different requirements. Built around each one.

1

PROJECT-LED SOLUTIONS

Layouts developed around the opening, building design and intended use.

2

FRAME & GLASS TOGETHER

Aluminium profiles, glazing, entrances and hardware considered as one complete assembly.

3

CUSTOM CONFIGURATIONS

From straightforward glazed entrances to larger elevations, corners and shaped glazing.

4

PROFESSIONAL INSTALLATION

Manufactured and installed by the HVS team, with attention to alignment, operation and finish.

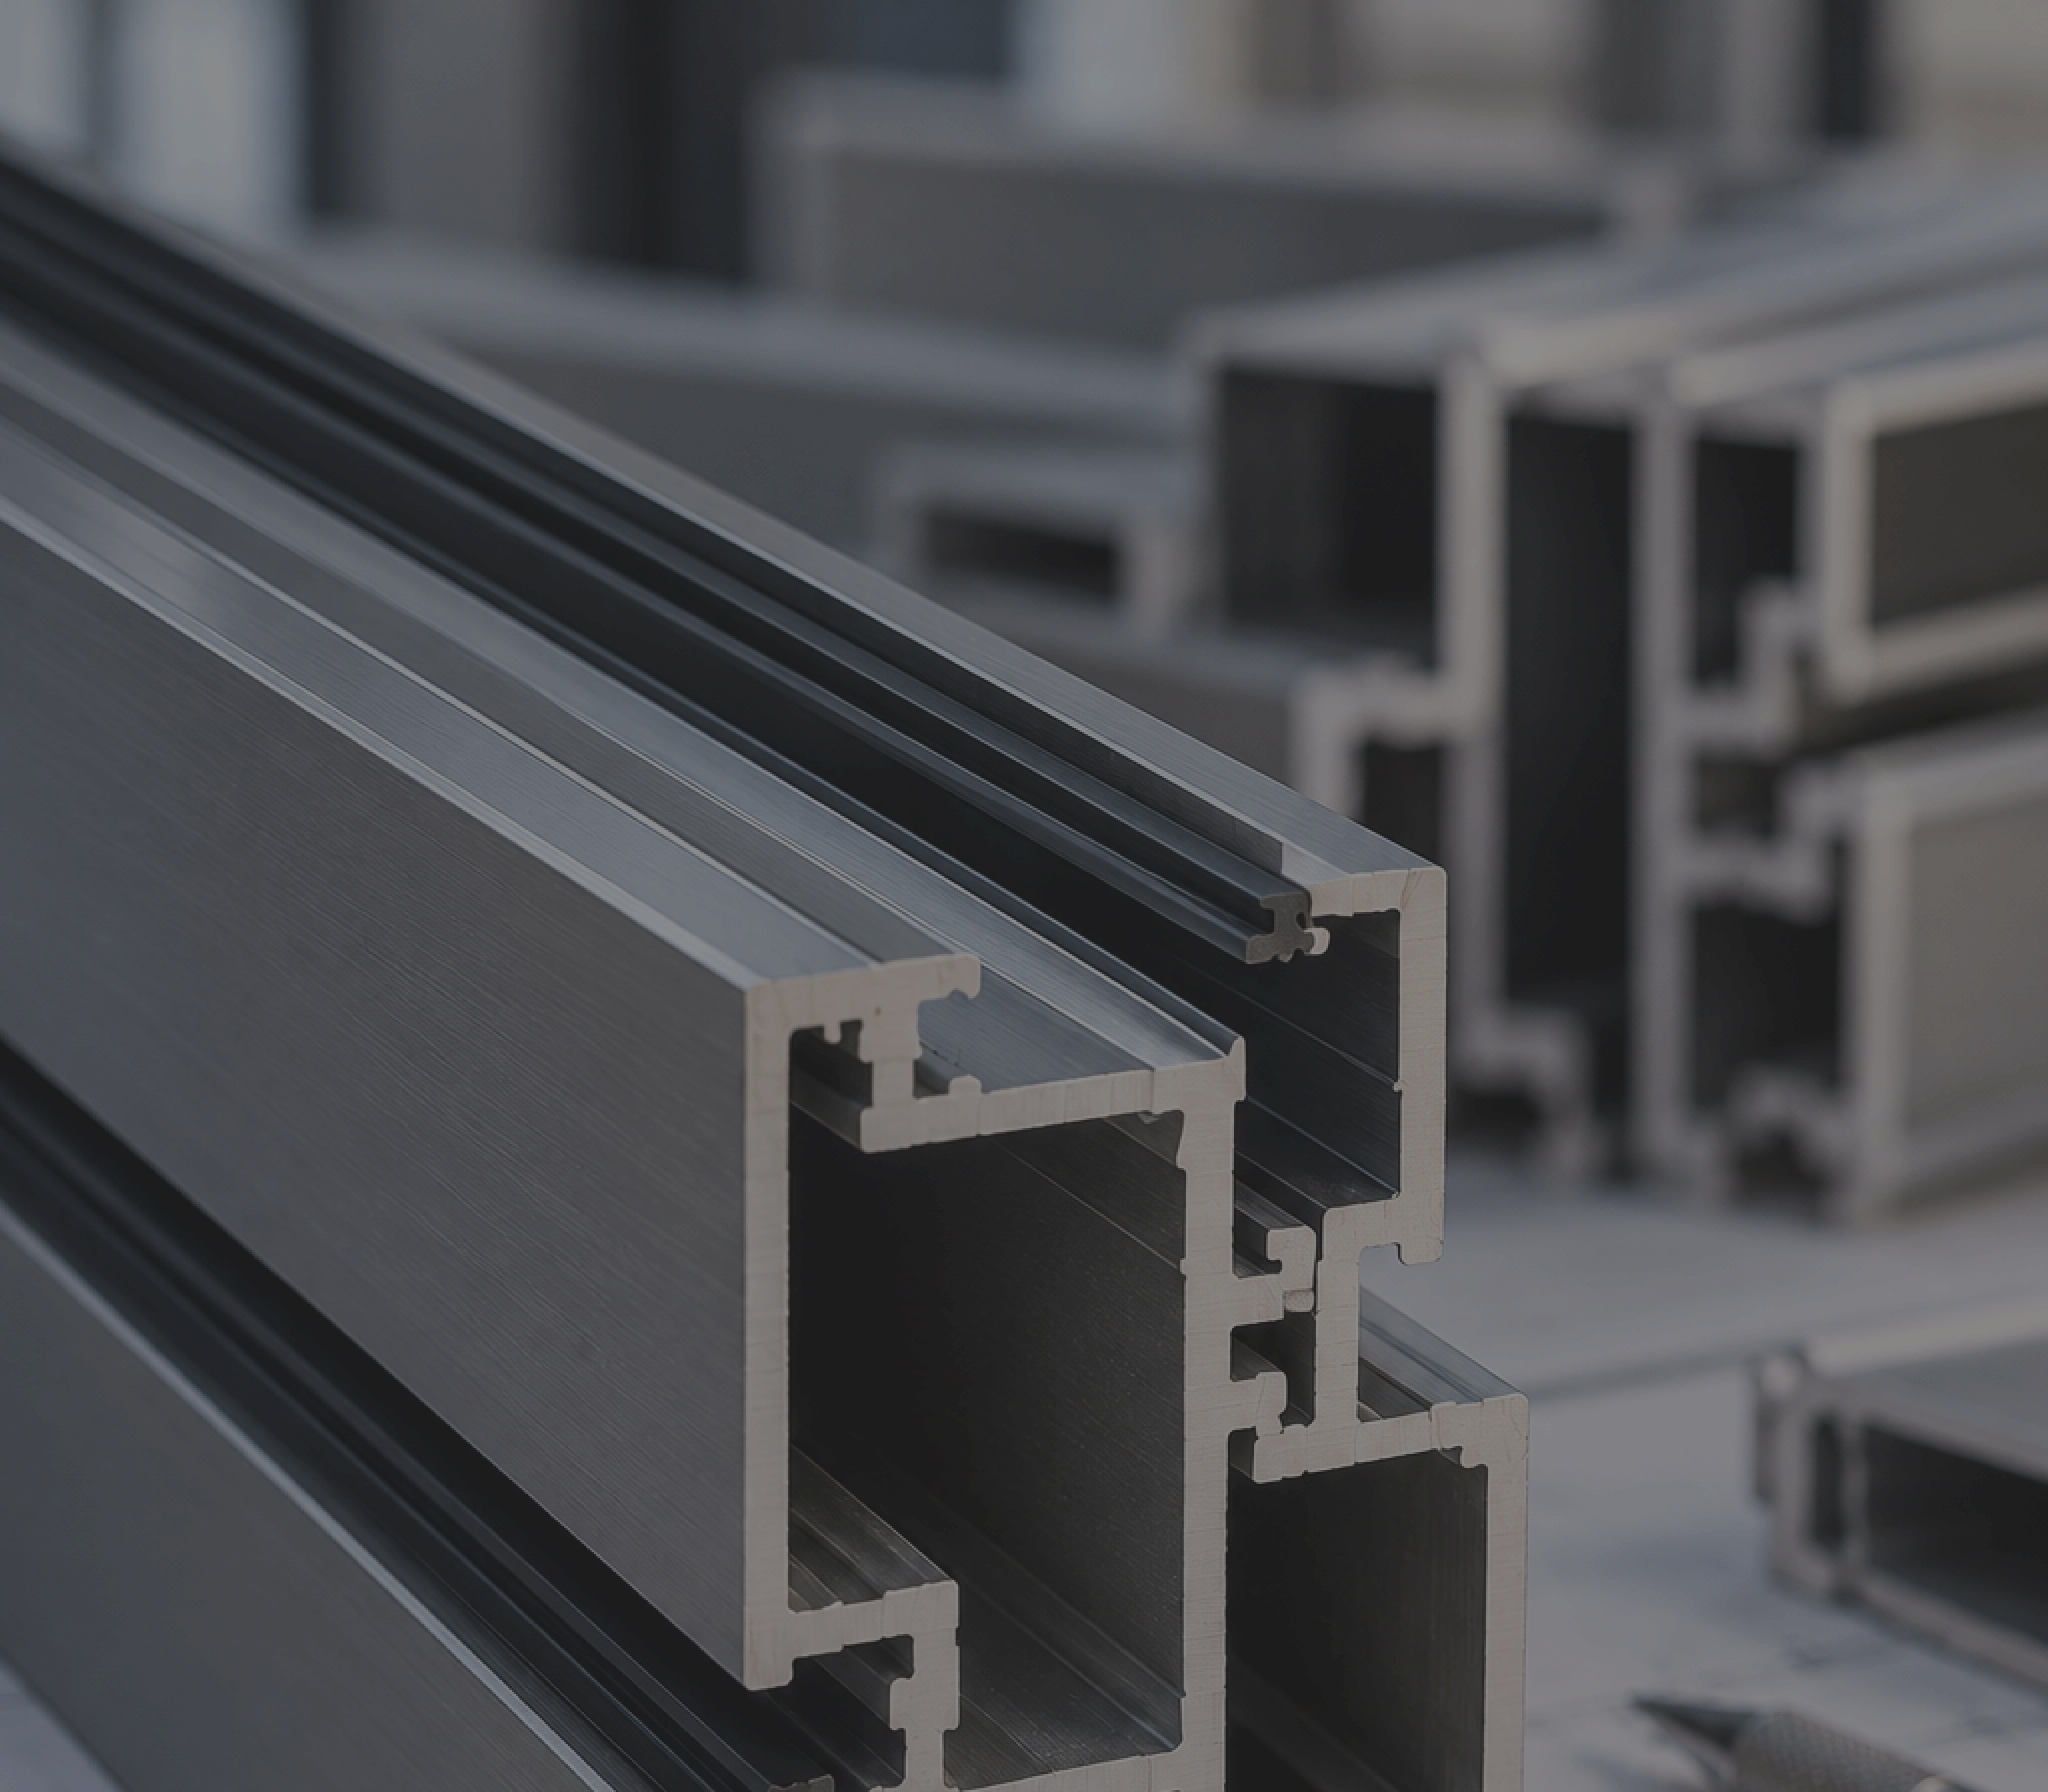

5

INDUSTRY REGISTERED

AAAMSA & SAGGA registered.
